Support Group Meeting

Gisela and Chris Slater-Walker

An Asperger Marriage

Gisela and Chris's philosophy is to present a positive image of Asperger's Syndrome within marriage. While they do not underestimate the difficulties involved in this demanding situation, they also make it clear that with significant effort and understanding on both sides, it is quite possible to create a stable and successful relationship. Gisela and Chris were founder members of harc and look forward to meeting new members.

When: Wednesday 10 March 2010
